Life loves to be taken by
the lapel and told, "I'm
with you kid. Let's go."

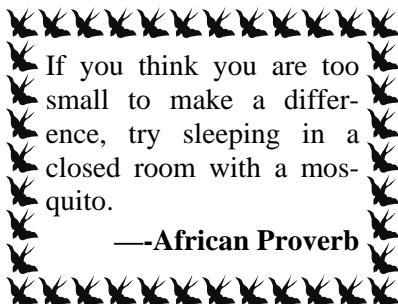

— **Maya Angelou**

In the quantum universe, there are no im-
possibilities! Anything can happen, be-
cause everything is connected. We can co-
operate with the newly-discovered scien-
tific understanding that restates empirically
what mystics have known for at least 6,000
years: "With God, all things are possible."

— **Greg Barrette**

Do not seek perfection in a
changing world. Instead, per-
fect your love.

— **Master Sengstan**

If you think you are too
small to make a differ-
ence, try sleeping in a
closed room with a mos-
quito.

— **African Proverb**

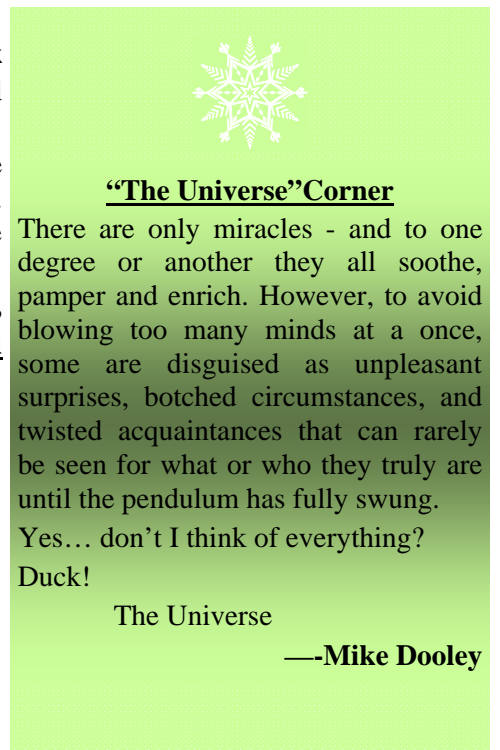

When the power of love overcomes the love of power, the world will know
peace.

— **Blue Elk**

I tell you this: all you see in your world
is the outcome of your idea about it.

Do you want your life to truly "Take
off"? Then change your idea about it.
About you. Think, speak and act as the
God You Are.

— **Neale Donald Walsch,**
Conversations with God

"The Universe" Corner

There are only miracles - and to one
degree or another they all soothe,
pamper and enrich. However, to avoid
blowing too many minds at a once,
some are disguised as unpleasant
surprises, botched circumstances, and
twisted acquaintances that can rarely
be seen for what or who they truly are
until the pendulum has fully swung.

Yes... don't I think of everything?
Duck!

The Universe
